CreateUserDB

The screenshot shows the mLab MongoDB web interface. At the top, a code editor displays a JSON document:

```
{
  "_id": {
    "$oid": "56e31b35e4b0643113a3cc2f"
  },
  "password": "123456",
  "confirmPass": "123456",
  "name": "Sushma"
}
```

Below the code editor, the browser address bar shows the URL: https://mlab.com/databases/dblab7/collections/Users?_id=56e31b35e4b0643113a3cc2f. The mLab logo is visible on the left. The main content area displays the document details:

Home: { db: "dblab7", collection: "Users" }

Document: 56e31b35e4b0643113a3cc2f

Edit document ([view keyboard shortcuts](#))

Below this, the same JSON document is shown in a code editor, with an additional field:

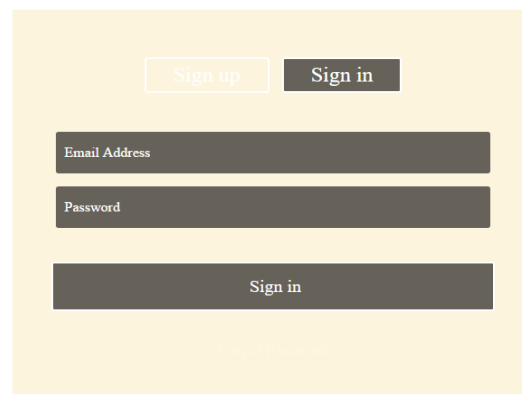

```
1 {
2   "_id": {
3     "$oid": "56e31b35e4b0643113a3cc2f"
4   },
5   "password": "123456",
6   "confirmPass": "123456",
7   "name": "Sushma",
8   "email": "smgp6@mail.umkc.edu"
9 }
```

Signin

The screenshot shows a web browser with the address bar displaying <localhost:8080/MongoDBRestService/>. The browser tabs include "Apps", "Ninite - Install o...", "University", "ASE", "SMT", "UMKC Students...", "CS551 - 2016 S...", and "Chegg Tutor".

Welcome to Rainbows

The form is set against a light yellow background. It features two buttons at the top: "Sign up" (outlined) and "Sign in" (solid dark grey). Below these are three input fields: "Email Address", "Password", and a "Sign in" button. The "Sign in" button is a wide, dark grey rectangle positioned below the "Password" field.
